

PLASTIC FLEXIBLE COOLANT PIPE

1/2" THREAD × 4" LENGTH

Plastic Flexible Coolant Pipe

1/2" THREAD SIZE × 4" HOSE LENGTH

KRC® BRAND

TECHNICAL SPECIFICATIONS

Material	High-Quality Polypropylene (PP++)
Thread Connection	1/2" BSP (Standard Pipe Thread)
Hose Length	4" Inches (~ 100 mm)
Nozzle Options	Round Nozzle & Flat Nozzle
Bending Angle	360° Fully Flexible Bending Radius (length size 300mm and above)

PRODUCT DESCRIPTION

Engineered from premium Acetal Copolymer (PP++), KRC® plastic coolant hoses offer exceptional chemical resistance to cutting oils, solvents, and emulsions. The modular segment design holds its exact position under fluid pressure with zero springback.

- ✓ Targeted coolant placement reduces thermal wear.
- ✓ Non-conductive properties are ideal for EDM machines.
