

PLASTIC FLEXIBLE COOLANT PIPE

CONSOLIDATED CATALOG - 1/4" THREAD SIZE

TECHNICAL SPECIFICATIONS

Material	High-Quality Polypropylene (PP++)
Thread Connection	1/4" BSP (Standard Pipe Thread)
Nozzle Options	Round Nozzle & Flat Nozzle
Bending Angle	360° Fully Flexible Bending Radius (length size 195 and above)

PRODUCT DESCRIPTION

Engineered from premium Acetal Copolymer (PP++), KRC® plastic coolant hoses offer exceptional chemical resistance to cutting oils, solvents, and emulsions. The modular segment design holds its exact position under fluid pressure with zero springback.

- Targeted coolant placement reduces thermal wear.
- Non-conductive properties are ideal for EDM machines.

AVAILABLE LENGTHS

Hose Length (Inches)	Hose Length (Metric)
2"	~ 50 mm
4"	~ 100 mm
6"	~ 150 mm
8"	~ 200 mm
10"	~ 250 mm
12"	~ 300 mm
18"	~ 450 mm
24"	~ 600 mm

SHOWROOM ADDRESS

Tatvam Tools
Showroom - 9, "Ram-Shyam" Apartment, Gondal Road,
Opp. DMart, Rajkot - 360004, Gujarat, India

PLASTIC FLEXIBLE COOLANT PIPE

CONSOLIDATED CATALOG - 3/8" THREAD SIZE

3/8"12"

TECHNICAL SPECIFICATIONS

Material	High-Quality Polypropylene (PP++)
Thread Connection	3/8" BSP (Standard Pipe Thread)
Nozzle Options	Round Nozzle & Flat Nozzle
Bending Angle	360° Fully Flexible Bending Radius (360° x 240mm)

PRODUCT DESCRIPTION

Engineered from premium Acetal Copolymer (PP++), KRC® plastic coolant hoses offer exceptional chemical resistance to cutting oils, solvents, and emulsions. The modular segment design holds its exact position under fluid pressure with zero springback.

- Targeted coolant placement reduces thermal wear.
